BUSINESS

Nicole *Jansen*

"Women Add Value is a powerful organization that is inspiring and equipping women of faith to use their God-given talents to further the Kingdom of God here on earth.

I've had the pleasure of supporting Jenny and her team with leadership coaching and team training as well as speaking and workshop facilitation at their 2021 leadership retreat. This has afforded me a firsthand look at the impact WAV is having on women around the world. It has encouraged me to believe bigger and partner with God in more transformative ways in my own initiatives. I am proud to support all that they are doing."
